

## **WELCOME 2010 BARRINGTON YOUTH FOOTBALL TACKLE FAMILIES**

May 20, 2010

Welcome to what promises to be another exciting and fun year of Barrington Youth Football. The football season is arriving quickly and we are sure that your child is excited about playing. As parents, we know that you want your child to have an enjoyable experience, as well as the opportunity to learn and develop the fundamentals of the game of football. We think it is of value to provide you with our perspective of youth football and how we manage our program.

First and foremost, youth football exists as an experience for the children who play. It is for their benefit, rather than for the coaches or parents. For many of the children, this will be their first or second year of playing organized football, and we feel that it is important that the experience be positive. Regardless of their playing skills, every child will have the opportunity to play. We will do all we can to assist every player to improve their skills and knowledge of the sport. However, one of the key outcomes of playing youth football is learning the sense of "team" and the discipline of sportsmanship. It is very important that every child feels part of a team and feels good about his (or her) participation. To accomplish this, the expectation is that he/she will always display good behavior, be open to instruction and accept victory and defeat with a positive attitude. This year we will again roll out our Sports Leader program to all players and coaches encouraging a daily commitment to Respect, Humility, and Courage as an individual both on and off the football field.

It is critical that all parents and fans also display good sportsmanship and respect for the teams, players, other fans, coaches and referees. We expect all of our families and supporters to represent our program with dignity, respect and pride.

Our emphasis is on all players feeling positive about themselves. Winning is a plus, but not at the sacrifice of any player's self worth. We feel we have done our job if all players finish the season feeling that they have learned how to play football better than when they began, they feel good about playing on a team, and the parents feel their child had a positive experience.

As a program we pride ourselves on good communications with the parents, players and volunteers. We will continue to do our best to communicate to the families throughout the season. This communications may be done via email, mail or by phone from the board, the head of your division or your head coach. You can also go online at [www.barringtonbroncos.com](http://www.barringtonbroncos.com) to get important dates or league information.

Our program participates in The Chicagoland Youth Football League (TCYFL), the largest independent youth football league in the United States, with over 30 communities competing. The TCYFL's website is [www.TCYFL.net](http://www.TCYFL.net). You will find information about the league, field locations, the game schedules and team standings there during the season.

**Within approximately two weeks you will receive an email from the head of the level that your son is currently slotted to play. That email will identify details of time and location for practices, contact information and other relevant details.**
